

MORE **WASH POWER**™

GLOWASH

MORE WASH POWER

The ability to maximize throughput and extra service revenue in a smaller foot print, without sacrificing wash quality, while minimizing utility costs and continuing to produce a consistently clean and dry car.

glowash
WASH EQUIPMENT, EVOLVED

**Upgrade
For The**

A car is being washed in a car wash. The scene is illuminated with vibrant red and green lights. The car is positioned in the center, facing forward, with its headlights on. The car wash structure is visible, with large brushes and water spray. The overall atmosphere is dynamic and modern.

Branding

With 57 different show scenarios available, our glowash offers the best branding option in the industry! Let us help you get ahead of your competition.

TERMINOLOGY EXPLAINED!

WAITING

Save electricity or enhance your washes branding by setting your Glowash™ for instances where the conveyor is at rest.

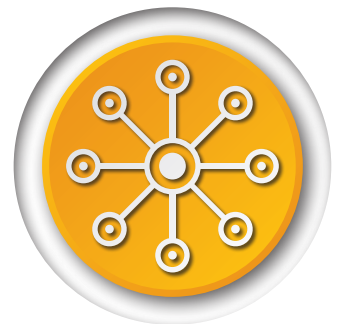

WASHING

Put on an absolutely spectacular show to keep your customers entertained, engaged, and coming back by setting your Glowash™ for when vehicles are being washed.

SHOW

Pre-program different sequences into your Glowash™ system for different color combinations and flashing rates.

SHOW ZONE

Hard wire a group of RGB LED lights located adjacent to one another in the tunnel to create a programmable section of Glowash™ equipment.

PROGRAMMABLE SHOW SETTINGS!

Chasing - All lights on, then each zone changes sequentially from one end of the tunnel to the other.

Fading - Gently fades in and out from one to color to the next.

Blinking - Single solid color blinks at a specific rate.

Solid - Single solid color on. Selectable choices - Red, Blue, Yellow, Green, Orange, and Purple.

Changing - Solid color to color change. No fade.

Custom - Upgrade your Glowash™ by selecting from the above shows to create your own custom show with your specific branded color.

Get Ahead of the Competition with Motor City Wash Works

YOUR WASH, YOUR CHOICE!

Whether you are looking to put on an amazing show for your customers with a single piece of equipment or light up your entire wash, we have you covered. Choose from individual components or link your entire tunnel together with one of our Glowash™ system panels.
